Chairman's Statement

On behalf of the board of directors (the "Board") of Renhe Commercial Holdings Company Limited (the "Company", together with its subsidiaries, collectively the "Group"), I report to all shareholders on the unaudited results for the six months ended 30 June 2014.

During the period under review, the Group's recurring income recorded positive year-on-year growth. Recurring lease income increased 19.6% year-on-year to RMB266 million while other income which mainly comprise of revenue from property management and relevant services increased 6.8% year-on-year to RMB51 million. However, mainly driven by a net valuation loss on investment properties, the Group recorded a net loss of RMB884 million. The value for the Group's investment properties excluding inventories was RMB25,990 million. The Group's gearing ratio was 23.9%.

As of 30 June 2014, the Group manages 22 malls across 12 cities in China. Gross floor area ("GFA") under management is 1.26 million square meters ("sq.m") while leasable GFA is 0.81 million sq.m. The Group's current project reserve is 4.81 million sq.m of GFA. This includes 12 projects under construction; equivalent to 1.32 million sq.m of construction GFA and 19 projects approved and under planning stage; equivalent to 3.49 million sq.m of approved GFA.

Under the macro backdrop of intensifying competition in the commercial property sector and impact from new business models, the Group continues to be prudent in terms of commencing new projects for development, we did not commence operation for any new malls in the first half of 2014. However, the Group recorded moderate growth in recurring income through enhancing the operating condition of existing malls and refined management.

Moving on to the Group's financial position, the Group's gearing ratio remains at a healthy level of 23.9%. Prudent steps such as scaling down construction starts amongst others were taken to better manage the Group's cash flow.

OUTLOOK

The Group believes that China's positive stance and support towards the consumption sector and underground shopping centers development remains intact. Looking ahead to the second half of 2014, the Group will continue to optimize management structure, enhance the efficiency of existing assets through refined management and be both selective and opportunistic in terms of commencing construction on new projects. The Group will endeavor to create value for our shareholders, customers and employees.

Lastly, I would like to thank all members of the board for their positive inputs, and our shareholders and business partners for their full support and trust in us. I would also like to thank the management and all employees wholeheartedly for their team work and commitment. On behalf of the Board, I sincerely thank various local governments for their support in Renhe Commercial, and contribution towards the success of our projects.

	For the six months ended 30 June 2014 RMB'000	For the six months ended 30 June 2013 RMB'000	Change RMB'000	Change %
Operating lease	265,967	222,302	43,665	19.6
Transfer of operation rights	8,820	39,427	(30,607)	(77.6)
Revenue	274,787	261,729	13,058	5.0

Operation Rights Transfer

Revenue generated from transfer of operation rights was recognized when the significant risks and rewards of the operation rights have been transferred to the buyers. For the six months ended 30 June 2014, revenue generated from transfer of operation rights was RMB8.8 million as compared to RMB39.4 million in the same period last year. During the first six months of 2014, the Group has transferred GFA of 444 sq.m in two projects as compared to 2,061 sq.m in last corresponding period. Transfer in this period comprised 386 sq.m of Jinzhou Project and 58 sq.m of Harbin Phase 6 Project. The average transfer price of RMB19,865 per sq.m for this period was slightly higher than that of RMB19,130 per sq.m for last period.

Operating Lease

As we derive all our operating lease income from the lease of space in our shopping centres, our operating lease income for a given period depends primarily on the following factors: (i) the GFA of shops available for leasing during the period; and (ii) the average rental of shops during the period. For the six months ended 30 June 2014, operating lease income increased by 19.6% to RMB266.0 million from RMB222.3 million last corresponding period. The increase in operating lease income was mainly attributed to the opening of the malls in Shenyang and Jinzhou in the second half of last year.

Cost of Sales

Cost of sales mainly comprise the cost for the transfer of operation rights amounting to RMB6.8 million which represent either costs of construction of properties or carrying amount of properties relating to the operation rights transferred during the period. Cost for the transfer of operation rights decreased to RMB6.8 million this period from RMB17.6 million last corresponding period which was mainly due to the decrease in the area of transfer to 444 sq.m this period from 2,061 sq.m last corresponding period.

Management Discussion and Analysis

Gross Profit

Gross profit increased to RMB268.0 million this period from RMB244.2 million last corresponding period.

Gross profit margin for the transfer of operation rights decreased to 23.4% this period from 55.4% last corresponding period which was mainly due to the higher cost of construction for the two projects transferred during this period.

Net Valuation (Loss)/Gain on Investment Properties

The net valuation loss on investment properties was RMB914.3 million as compared to net gain of RMB126.3 million last corresponding period. The Company incurred net valuation loss which was mainly due to the drop in valuation of the Dongguan project as a result of the change of around 17,322 sq.m construction areas from shopping mall to car park space. The net valuation loss after deducting the related deferred tax and non-controlling interest was RMB679.6 million as compared to net gain of RMB58.8 million last corresponding period.

Other Income

Other income increased to RMB50.9 million for the six months ended 30 June 2014 from RMB47.7 million in the last corresponding period which was mainly attributed to the increase in income from providing property management services.

Administrative Expenses

Administrative expenses decreased by 10.3% to RMB194.1 million for the six months ended 30 June 2014 from RMB216.4 million in the last corresponding period which was mainly due to the decrease in staff cost and entertainment expenses.

Other Operating Expenses

Other operating expenses increased by 10.1% to RMB155.5 million for the six months ended 30 June 2014 from RMB141.3 million in the last corresponding period which was mainly due to the increase in repair and maintenance expenses.

Finance Income

Finance income increased to RMB99.2 million for the six months ended 30 June 2014 from RMB8.7 million in the last corresponding period as a result of increase in interest income on trade receivables.

Finance Expenses

The total value of investment properties increased by 0.9% to RMB25,990.5 million as at 30 June 2014 from RMB25,748.6 million as at 31 December 2013 as a result of increase in value of completed projects. Projects under construction decreased by 2.4% to RMB10,062.2 million as at 30 June 2014 from RMB10,312.6 million as at 31 December 2013 which was mainly due to delayed construction period and the change of 17,322 sq.m construction area from shopping mall to car park space in Donguan Humen Project.

In addition, there were trade receivables booked as non-current asset amounted to RMB633.2 million as at 30 June 2014 as compared with RMB1,171.9 million as at 31 December 2013 which solely arose from the transfer of operation rights in previous years that the Group has re-negotiated repayment schedules with the buyers to settle the outstanding balance within three years. To facilitate the Company's plan of repositioning certain shopping malls, the Company has acquired certain shop units from buyers at market value. Under these arrangements, trade receivables of around RMB435.8 million has been offset during this period.

Management Discussion and Analysis

Liquidity and Financial Resources

As at 30 June 2014, total assets of the Group amounted to RMB35,410.0 million as compared with RMB35,963.0 million as at 31 December 2013. In terms of financial resources as at 30 June 2014, the Group's total cash at bank and on hand was RMB1,295.1 million (as at 31 December 2013: RMB1,284.1 million). The total restricted bank deposits as at 30 June 2014 was RMB177.7 million as compared to RMB185.9 million as at 31 December 2013.

Our capital base has been strengthened as a result of net proceeds of RMB5,801.7 million through issuing Senior Notes 2015 of USD300 million on 18 May 2010 and Senior Notes 2016 totaling USD600 million on 10 September 2010 and 15 November 2010. The Senior Notes 2015 bear interest at 11.75% per annum, payable semi-annually in arrears, and will be due in 2015 while the Senior Notes 2016 bear interest at 13% per annum, payable semi-annually in arrears, and will be due in 2016.

The gearing ratio as at 30 June 2014, which is calculated by dividing the total interest-bearing borrowings by total assets was 23.9% as compared to 21.7% as at 31 December 2013.

The Group services its debts primarily with recurring cash flow generated from its operation. Together with the proceeds raised from the capital market and bank loans, we are confident that we should have adequate financial resources to meet its future debt repayment and support its working capital and future expansion requirements.

Foreign Exchange Rate Risk

Renminbi is not freely convertible into foreign currencies. All foreign exchange transactions involving Renminbi must take place through the People's Bank of China (the "PBOC") or other institutions authorised to buy and sell foreign exchange. The exchange rate adopted for the foreign exchange transactions are the rates of exchange quoted by the PBOC that would be subject to a managed float against an unspecified basket of currencies. Foreign currency payments, including the remittance of earnings outside the People's Republic of China ("the PRC"), are subject to the availability of foreign currency (which depends on the foreign currency denominated earnings of the Group) and must be arranged through the PBOC with government approval.

All cash and bank balances of the Group denominated in Renminbi were placed in banks in the PRC. Renminbi is not freely convertible and the remittance of earnings to overseas is subject to exchange control promulgated by the PRC government. All the revenue-generating operations of the Group are transacted in Renminbi. The Group also kept certain bank balances in Hong Kong which are denominated in US dollar or HK dollar and the senior notes are denominated in US dollar. The Group is exposed to foreign currency risk on financing transactions denominated in currencies other than the functional currency of our subsidiaries (Renminbi) in the PRC and functional currency of the overseas group entities (Hong Kong dollar). Depreciation or appreciation of the Renminbi and Hong Kong dollar against foreign currencies can affect the Group's results. The Group currently does not hedge our foreign exchange risk but may do so in the future.

(Incorporated in the Cayman Islands with limited liability)

INTRODUCTION

We have reviewed the interim financial report set out on pages 19 to 44 which comprises the consolidated statement of financial position of Renhe Commercial Holdings Company Limited (the "Company") as of 30 June 2014 and the related consolidated statement of profit or loss, statement of profit or loss and other comprehensive income and statement of changes in equity and condensed consolidated cash flows statement for the six month period then ended and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of an interim financial report to be in compliance with the relevant provisions thereof and International Accounting Standard 34, *Interim financial reporting*, issued by the International Accounting Standards Board. The directors are responsible for the preparation and presentation of the interim financial report in accordance with International Accounting Standard 34.

Our responsibility is to form a conclusion, based on our review, on the interim financial report and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the Hong Kong Institute of Certified Public Accountants. A review of the interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report as at 30 June 2014 is not prepared, in all material respects, in accordance with International Accounting Standard 34, *Interim financial reporting*.

Notes to the Unaudited Interim Financial Report

(Expressed in Renminbi unless otherwise indicated)

1 BASIS OF PREPARATION

This interim financial report of Renhe Commercial Holdings Company Limited (the “Company”) and its subsidiaries (hereinafter collectively referred to as the “Group”) has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, including compliance with International Accounting Standard (IAS) 34, *Interim financial reporting*, issued by the International Accounting Standards Board (IASB). It was authorised for issue on 19 August 2014.

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2013 annual financial statements, except for the accounting policy changes that are expected to be reflected in the 2014 annual financial statements. Details of these changes in accounting policies are set out in Note 2.

The preparation of an interim financial report in conformity with IAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

This interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2013 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for full set of financial statements prepared in accordance with International Financial Reporting Standards (IFRSs) promulgated by the IASB.

The interim financial report is unaudited, but has been reviewed by KPMG in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the Hong Kong Institute of Certified Public Accountants. KPMG’s independent review report to the Board of Directors is included on page 18.

The financial information relating to the financial year ended 31 December 2013 that is included in the interim financial report as being previously reported information does not constitute the Company’s statutory financial statements for that financial year but is derived from those financial statements. Statutory financial statements for the year ended 31 December 2013 are available from the Company’s registered office. The auditors have expressed an unqualified opinion on those financial statements in their report dated 27 March 2014.

Notes to the Unaudited Interim Financial Report

(Expressed in Renminbi unless otherwise indicated)

2 CHANGES IN ACCOUNTING POLICIES

The IASB has issued a number of amendments to IFRSs and one new interpretation that are first effective for the current accounting period of the Group and the Company. Of these, the following developments are relevant to the Group's financial statements:

- Amendments to IAS 32, *Offsetting financial assets and financial liabilities*
- Amendments to IAS 36, *Recoverable amount disclosures for non-financial assets*

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

Amendments to IAS 32, Offsetting financial assets and financial liabilities

The amendments to IAS 32 clarify the offsetting criteria in IAS 32. The adoption of the amendments does not have an impact on the Group's interim financial report because the Group has not offset financial instruments, nor has it entered into master netting arrangement or similar agreement which is subject to the disclosures of IAS 32 during the periods presented.

Amendments to IAS 36, Recoverable amount disclosures for non-financial assets

The amendments to IAS 36 modify the disclosure requirements for impaired non-financial assets. Among them, the amendments expand the disclosures required for an impaired asset or CGU whose recoverable amount is based on fair value less costs of disposal. The Group early adopted the amendments in the annual financial statements for the year ended 31 December 2013.

3 SEGMENT REPORTING

IFRS 8 requires segment disclosure to be based on the way that the Group's chief operating decision maker regards and manages the Group, with the amounts reported for each reportable segment being the measures reported to the Group's chief operating decision maker for the purposes of assessing segment performance and making decisions about operating matters.

The Group manages its business in a single segment, namely the shopping mall operating business. The Group's most senior executive management assesses performance and allocates resources on a group basis. Accordingly, no operating segment information is presented.

The Group's operations are located in the People's Republic of China (the "PRC"), no geographic segment reporting is presented.

	(171,925)	59,366

- (i) According to the Corporate Income Tax Law of the PRC, from 1 January 2008, the statutory income tax rate applicable to the Group's subsidiaries in the PRC is 25%.
- (ii) According to the Implementation Rules of the Corporate Income Tax Law, the overseas investor to the foreign investment enterprises ("FIEs") shall be liable for withholding tax at 10% on the dividend derived from the profits of the year 2008 and thereafter of the FIEs in the PRC. In addition, tax treaties between the PRC and other countries could override the withholding tax rate on dividend if a tax treaty provides a more favourable withholding tax rate. Under the Sino-Hong Kong Double Tax Arrangement, a Hong Kong company will be liable for withholding tax at the rate of 5% for dividend income derived from the PRC if the Hong Kong company holds 25% of equity interests or more of the Chinese company directly. As the holding companies of such FIEs in the Group are Hong Kong companies (the "Group's Hong Kong Holding Companies"), the Group calculated relevant withholding tax based on the withholding tax rate of 5%.

Along with the implementation of Circular of the State Administration of Taxation on How to Understand and Determine "Beneficial Owners" under Tax Conventions (Guo Shui Han [2009] No. 601), the Group's Hong Kong Holding Companies need to get approval from tax authorities for the determination of "beneficial owners" for the purpose of enjoying withholding tax rate of 5%. As at 30 June 2014, the Group obtained all the approvals for the PRC companies which declared dividends.

- (v) In accordance with the Land Appreciation Tax Law of the PRC, Land Appreciation Tax is levied at the properties developed with legal title by the Group for sale in the PRC. Land Appreciation Tax is charged on the appreciated amount at progressive rates ranged from 30% to 60%.

The Group's completed investment properties were valued in their existing states by reference to comparable market transactions. The Group's investment properties under construction were valued by estimating the fair value of such properties as if they were completed in accordance with the relevant development plan and then deducting from that amount the estimated costs to complete the construction, financing costs, marketing and legal costs and an allowance for developer's risk and profit.

Cash flows beyond the 10-year period are extrapolated using an estimated weighted average growth rate of 4%. The cash flows are discounted using a discount rate of 7.7%.
